

Business college sponsors workshop

April Wood
RU Staff

In order to provide interested students with more information about careers in business, the Advising Center of the Business College is sponsoring an information workshop on March 4.

The workshop, entitled, "What Color Is Your Business Parachute?" will feature 10 professionals from business communities around the state, who will speak briefly on their specific fields and then answer any questions students may have for them.

Nicole Weber, organizer of the career workshop, said that most of these speakers are NMSU graduates who represent all the majors within the Business College. These professionals come from such corporations as MicroSwitch, Digital, and the El Paso Electric Company.

Weber said that the workshop is not a recruitment meeting, but rather a meeting at which businessmen will talk about their careers, offer information to business students and any other interested students, and give students the opportunity to ask them questions about their particular areas of interest.

After the professionals have answered questions, the meeting will be divided into smaller groups in which students can talk with the businessmen on a more personal basis.

The workshop will be held from 2:30 to 4:30 p.m. in Room 100 of Guthrie Hall, and is open to anyone wanting to know more about careers in business.

For further information, contact Nicole Weber at 646-2531.
